| Cloudflare | Netlify | Azure |
| Vercel | AWS Lamda | |

WORK EXPERIENCE.

Lead Software Engineer

04/2018 - Present at **Kiprosh**

- My role spans leading teams, onboarding, mentoring and software development.
- Write performant, maintainable code and deploy apps on multiple platform for a diverse array of clients, community and internal projects.
- Helped cure.fit in building gear vertical on both web and mobile apps.
- Worked closely with the team to build an e-commerce platform for cultgear that spans packaging both web and mobile apps in a single codebase.

Software Engineer

09/2015 - 04/2018 at **NeoSOFT Technologies**

- Work with a variety of different languages, platforms, frameworks such as JavaScript, TypeScript, React, Angular, Ionic, Phonegap, Appcelerator Titanium.
- Communicate with multi-disciplinary teams of engineers, designers clients on a daily basis.
- Engineered and maintained major features of VANSO's customer facing mobile apps using Backbone, HTML, CSS, Cordova.
